

PSM CONTROL PANEL

The requirements of the PSM standard are extensive. Keeping track of the documents and data required in the standard can be a challenge even if you have a good PSM plan up and running. iWorkWise's PSM Control Panel organizes your facility's PSM plan, forms, and documents in one location. With a few clicks of the mouse, you can access any document related to your plan.

All your facility specific PSM documents are at your fingertips, including:

- ▶ PSM plan sections
- ▶ Process Safety Information such as drawings, SRV system design, U1As, design codes and standards, etc.
- ▶ Completed PHAs and PHA follow up lists
- ▶ Standard Operating Procedures
- ▶ Training records
- ▶ Contractor information
- ▶ Mechanical Integrity inspection and maintenance records
- ▶ Hot Work Permits
- ▶ Management of Change records
- ▶ Incident Investigations
- ▶ Compliance Audits
- ▶ Emergency Plan documents
- ▶ Pre-Startup Safety Reviews
- ▶ Blank and completed forms

In addition, the PSM Control Panel manages the information for your facility equipment. All the technical information about each piece of your equipment is contained in one user-friendly system, including:

- ▶ Manuals
- ▶ Valve and instrumentation cut sheets
- ▶ Manufacturer, model and serial numbers
- ▶ Specifications
- ▶ Capacities
- ▶ Set points

One screen with access to everything you need. No more digging through stacks of paper, binders and manuals. Get control of your PSM documents and data.
