

HAZARDOUS MATERIALS EMERGENCY ON AN IPAD

A hazardous materials emergency requires a swift, seamless, and organized response. You cannot afford to miss a beat!

To assist you when you need it most, and to ensure safety, compliance, and easy access to information, iWorkWise is now launching customized iPads containing all of your important emergency response material. Avoid fumbling through outdated, disordered, or confusing paperwork; use an iPad with current, accessible, and convenient documents and applications.

Your custom iPad will arrive pre-loaded with the following features:

- ✓ An individualized emergency response checklist for accessible, real-time use during an incident
- ✓ Electronic versions of important emergency response documents, including: your company's emergency response plan, piping diagrams, ammonia safety data sheets, iWorkWise's Emergency Response flowchart and ammonia poster, and more
- ✓ Convenient iOS applications to provide quick reference and important chemical information. Applications include: the HAZMAT Emergency Response Guidebook, NIOSH's Chemical Hazards Pocket Guide, the WISER application for emergency responders, and the HAZMAT Evacuation application

Let us help you organize and streamline your emergency procedures and information! iWorkWise will ensure that your company receives support and training to answer all iPad-related questions.

The image displays two overlapping iPad screens. The top screen shows a chemical information application for Ammonia, listing synonyms, CAS numbers, RTECS numbers, formula, conversion factors, and measurement methods. The bottom screen shows a 'HAZMAT GROUP SUPERVISOR CHECKLIST' with various assessment questions and checkboxes, such as 'Is the source of the release known?' and 'Confirm Isolation and Evacuation of IDLH area and affected areas'.

Additionally, iPads can be used to support OSHA PSM compliance. Examples of add-on features include:

- ✓ Mechanical integrity schedules and inspection checklists
- ✓ Electronic OEM documents and manuals including valve cut sheets
- ✓ Rounds sheets/logs with graphing capability
- ✓ Operating and maintenance procedures
